

FCS backs up IPO for ITA and OTC

Research coordinator Dr. Rowena Ocier Sibayan of the FCS department holds internship programme orientation for information technology authority and Oman telecommunication companies last 2-3 March, 2015. Gulf College envisions a world where every student can uplift his/her creativity of upholding achievements, developing skills and have greater attention to professional status quo.

One of the initiatives of GC is to serve students through internship programme which will provide a variety of benefits for young workers who want to broaden their chances for landing a job and jump-starting their careers. In this internship orientation gave the students of what a profession is like, help them build their resume and let them meet people who can help them in building their career and not to miss the opportunities which will expand their skills and background.
